Subject: Re: TE & BCS meeting

Hi folks,

sorry to be off the back on this, I'm back from a bunch of travelling. Yes we'll meet tomorrow at CAB, is it possible to move the meeting up by 30 minutes to 930am? This would work better for us if you're able to shift it. I'm still working on the agenda/list of topics. From BCS side we're interested to get updates on topics that include:

- VanBuren, including PPRTA and other funding
- Bike Tax funding plans
- Our misunderstanding about the bike tax and PikeRide support and how to move forward
- Chelton public process
- Downtown arena - plans for bikes (and access to parking plan?)
- GoCoSprings or future ways for users to provide input
- Rockrimmon rework and plans for bike infrastructure in that part of COS

Stay tuned for a more refined agenda, share your suggested topics with me, and please do let me know if 930am works.

Thanks

Cory

It appears that it does not work for Tim, but I have sent a text to both Tim and Todd to verify. I will let you know what I hear. One thing I would like to talk about is a thought I had about how we might use Chief of Staff Jeff Greene's recent public and positive statements in support of bike infrastructure in a way that is needed. More tomorrow.
