Subject: latest article on city's closing roads to accommodate growing number of users

All,

We all know that exercise is necessary right now. Driving around for fun is not, which is why so many cities are taking quick action to support recreation that promotes health and wellness, while keeping everyone at a safe distance.

Karen will be sending out a meeting invitation for 12:30pm today. Please be on the lookout for it.

Thanks to all for taking the time, on very short notice, to meet. This issue is urgent for our city and our citizens and we are grateful to everyone for making the time to gather.

My best to all of you.
